**Request to be a Director of the Talpines Property Owners' Association
Board of Directors**

This is a brief letter asking to be considered for a Director position on the Board of Talpines POA.

We have lived in Waubashene for a year, and have loved the area and have met so many wonderful people.

When I moved here, one of my goals was to participate and volunteer for an organization that allowed me to be involved within the community. Upon getting to know and also being an active member of Talpines POA, I was hoping that I could become more involved with the group and be part of the ideas and decisions being made that involve and affect our community. I have volunteered at the Pine Street garden, and beach raking. My family and I were involved in the recent Trail cleanup. I have also volunteered to assist with the water testing program.

In the past, I have been on many committees and have volunteered most of my young and adult life. We moved from the beautiful village of Kilbride and I was very involved within various groups within that community.

I was on the Parent Council when our children were at school, was on the board and ran the tennis league for Kilbride Tennis club, volunteered for the Canadian Cancer Society for over 10 years, volunteered at Kerr St. Mission in their food bank and have been on many committees through my work at the Oakville Public Library.

I love the outdoors and being active, whether it is playing sports, gardening, swimming or hiking. I love nature and am always mindful of preservation and conservation. I consider myself a steward of the environment.

I hope that this gives a little bit of information of what I have previously been involved with and some experiences that I have had.

I look forward to hearing from you about my candidacy. Thank you for considering me.

Sue Dougherty
